Home Enrichment Activities:

- We tend to mostly use our hands to touch and feel things around us. Instead of using hands, have your child feel with his/her feet! Fill up a plastic tub or bucket with shaving cream, cornstarch, sand, beans, cotton, or any other items that you can think of. Your child can stick his/her feet in and feel the different textures and consistencies of the items that you put in the tub or bucket. Have your child describe what he/she feels.
- Talk with your child about God's presence in his/her life. The Bible says that even though we cannot see God, He is there. Help your child to understand that when he/she prays to God, He hears their prayers. Read Psalm 139 with your child to hear what God says about His presence in our lives.
- Make a sensory tub with your child. Fill a plastic shoe box or tub with cotton balls, tin foil, dried beans, dried rice, sponges, sand paper, pine cones, bells, and any other items around your house that your child could touch and feel the many different textures. Ask your child questions like, "Is it soft, rough, bumpy or squishy?" "Does it make a sound or have a smell?"
